Dear Michael

Thank you for the opportunity to comment on the National Land Freight Strategy Discussion Paper (February 2011).

PoMC would like to offer the following comment on Map 2 (page 13). The 2030 international containerised exports from Melbourne (assuming full) are inferred to be greater than imports. This is not the case based on PoMC's trade forecast.

Please feel free to contact me should you require further clarification on this matter.

Regards
